INAUGURAL ADDRESS BY JOHN W. STORRS, MAYOR OF CONCORD

Not having the gift of gracious expression, I can only say it is with a deep sense of appreciation of the honor, bestowed by the citizens of Concord, in calling me to represent them as their Mayor.

It is further gratifying to feel that they have elected a Board of Aldermen that they believe will serve their best interests, be a credit to the city, and merit the confidence that they have in them placed, and at the end of your term may the public acclaim of this Board, "It hath done meritorious service."

It is customary for the incoming Mayor to proceed with an inaugural address (which no one ever reads); to state the condition of finances of the city, of taxes, and to comment on the activities of the former city government—also to proclaim policies for the future.

As to the financial condition of this city there are figures available, and the present Board will, and must, give them their careful and thoughtful consideration.

As to taxes, the rates are already high, and with present contingencies and the recent actions, they probably will be higher, and while *you* may not be at fault, you will be credited with any increase. Under the sense of stern compulsion, "we must adapt ourselves to conditions not of our own making."

The address given by Mayor Brown at the last meeting is comprehensive and well worth your study; it is informative and will be found useful in your deliberations.

There are, and will be, necessary expenses for the proper functioning of departments and required progressiveness of the city. That all costs must be carefully given your best attention is essential, and among your duties. Conservation of our resources require your solicitous meditation. Economy is a by-word—every one believes in economy and every one talks economy; luxuries of the past are necessities today;

the public are willing to, and do, pay for things that are necessary; they want, however, something to show for their expenditures. We are expected to use care and to give mature thought to all presentations. You may expect that units of constructive significance will, specifically, be brought to your attention at later dates.

To elaborate on certain points is superfluous. To quote a long line of figures is tedious and tiresome, of no avail, passing at once from memory, but some are worthy of attentive study. To go far into detail is something easily picked to pieces and subject to criticism. Just criticism gives assistance and is helpful, but fault finding is not constructive. No one person or any one action is expected to please all individuals—the American people are not so constituted.

Let us stand four-square to all the winds that blow, with implacable purpose, and present an impregnable bulwark against all propaganda. Let us be true, with unswerving fidelity, to the trusts upon us imposed.

I hope our administration will be free from all political intrigues, all trades, and all "if you will help me I will help you" agreements. Let no one be hypnotized by his own visions, but seek assurance that we are working for the good of all. It must be one of our endeavors to urge that there be friendly relations happily subsisting between ourselves and the different departments of the city; this will promote efficiency and be of advantage to all concerned; it will reflect credit to those who can think of the Commonwealth.

Regarding policies! Suffice is to say (and I am impressed with the opinion that I have the unanimous support of my associates) that declarations at this time are inopportune and unseasonable. Things are moving with great rapidity; what may have looked good yesterday may tomorrow be worthless, or of little value. It will be my purpose to keep advised of all necessities and I will from time to time, as occasion demands, initiate, introduce or suggest to you such requirements as may be pertinent for action. With the shadows of uncertainty hanging over us we will meet conditions as they arise or come into existence—contingencies

and emergencies will be taken eare of as they present themselves. "Sufficient unto the day is the evil thereof" and "things done well, and with a eare, exempt themselves from fear."

You are elected by, and represent, the people of our city, and by your doings and actions will be judged and held responsible—"your faults will find you out." I am but a figurehead, but with your loyal and co-operative support I have the supreme confidence that we will not only be a credit to those who placed us here but that we will set a reliable and beneficial example for future governments to follow.

MUNICIPAL REGULATIONS

FOR PAYMENT OF BILLS AGAINST THE CITY

All persons furnishing materials or service for the city, or aid to the city poor, should be particular to take the name of the person ordering such service, material, or aid, and should *know* that the person is duly authorized to contract such liability.

The city will not be holden for merchandise sold or delivered on city poor account, except on the written order of the overseer of the poor, and for no longer time than until his successor shall have been appointed and qualified.

Duplicate copies will be required of all bills payable by the city, furnished on county poor account.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the Committee on Accounts and Claims, and no order will be given for its payment.

Bills so certified should be left with the city clerk on or before the second day of the month.

If approved by the Committee on Accounts and Claims, they will be ready for payment on Thursday following the regular monthly meeting of the city government.

The regular monthly meetings of the city government occur on the second Monday of each month.

ARTHUR E. ROBY, City Clerk.

MAYORS OF THE CITY OF CONCORD

The original charter of the city was adopted by the inhabitants March 10, 1853, and until 1880 the Mayor was elected annually. Since 1880 the Mayor has been elected for two years, at each biennial election in November. Under the City Charter, adopted May 11, 1909, the Mayor was elected, in December, 1910, for one year, and biennially thereafter in November beginning in the year 1911.

REPORT OF THE BOARD OF WATER COMMISSIONERS

To the Honorable Mayor and Board of Aldermen:

The Board of Water Commissioners, in presenting the sixty-third annual report by its Superintendent, Percy R. Sanders, feels that 1934 shows another profitable year in the operation of Concord's water works. During the year the surplus funds, account of 1934 receipts, and the balance brought over from last year enabled the Superintendent to lay 5,700 feet of eight-inch distribution pipe from the St. Paul's School road across the Old Saw Mill Road and west on the Hopkinton Road to the junction of the old and new roads to Hopkinton, replacing the old four-inch and two-inch pipe laid a number of years ago, with the result that this community, consisting of a number of substantial residences, gets adequate fire protection. This job lasted a number of weeks and gave work to the unemployed.

Also, a substantial amount of new distribution pipe was laid in West Concord, giving better fire protection, and our service was also extended in Concord Heights.

The water at Lake Penacook has given the city an abundant supply of water during the year and, consequently, the Sanders Pumping Station at North Pembroke has been in service for only short periods.

The consumption of water remains about the same as last year, and the details of this service are fully reported in the report of the Superintendent.

There has been erected this year an iron fence, seven feet high, completely surrounding the high service reservoir, which is an additional protection for the water stored there.

Last summer our Superintendent, with the approval of the members of the Water Board, suggested a location for a public swimming pool located on land of the city controlled by the Water Commissioners, east of the dam at Lake Penacook and behind and west of the Garrison School at West Concord, water for the pool to be furnished from Penacook Lake. The City Government has the matter still under advisement.

The financial statement for the year shows all accounts paid and a balance carried forward January 1, 1935, of \$27,774.87.

Respectfully submitted,

For the Board of Water Commissioners duly authorized,

HARRY H. DUDLEY,

President.

EXTENSIONS AND IMPROVEMENTS

Distribution pipes relaid and extended:

14-inch, bitumastic-lined:

North State Street in West Concord, to complete relaying 14-inch and 12-inch cement-lined pipes, 243 feet; connected with 3,036 feet of 14-inch pipe laid in 1933; total amount relaid in 1933 and 1934, 3,279 feet, all replacing 1,764 feet of 12-inch and 1,515 feet of 14-inch cement-lined pipes; total amount discontinued, 3,279 feet.

12-inch:

Hutchins Street, 57 feet on connection with new 14-inch main; 100 feet of 12-inch cement-lined discontinued.

S-inch:

Sewall's Falls Road, 40 feet on connection with new 14-inch main; 80 feet of 6-inch discontinued.

Old Saw Mill Road, from Pleasant Street to Hopkinton Road, 2,937 feet, replacing 2,951 feet of 4-inch.

Hopkinton Road, from Old Saw Mill Road west, 2,834 feet, replacing 190 feet of 6-inch, 624 feet of 4-inch and 2,041 feet of 2-inch; total amount laid, 5,771 feet; 5,806 feet discontinued.

6-inch:

Sewall's Falls Road, extended north from Second Street, 2,560 feet.

Chase Street, from Canterbury Road east, 935 feet.

Roosevelt Avenue, extended west, 110 feet.

On connections to new 14-inch main, 24 feet added; 10 feet discontinued.

2-inch:

Hopkinton Road, extended from 8-inch and on connection, 996 feet.

Canterbury Road, north from Loudon Road, 886 feet.

Burns Avenue, north from Loudon Road, 223 feet.

South Pembroke Road, extended south, 193 feet.

Bow Street, extended south, 157 feet.

Chase Street, east from 6-inch pipe, 34 feet.

Cross Street, Penacook, on connection, 14 feet.

On hydrant branches, 56 feet of 8-inch and 258 feet of 6-inch; 82 feet of 6-inch iron and 72 feet of 6-inch cement-lined discontinued.

On blow-offs, 24 feet of 4-inch iron and 41 feet of 4-inch cement-lined pipe discontinued.

Also discontinued 131 feet of 6-inch and 34 feet of 4-inch cement-lined pipe.

Thirty-two gates were set, of which 17 were changed, occasioned by relaying mains; 4 additional gates were discontinued.

Eleven new hydrants have been set:

Sewall's Falls Road, east side, at Besse's.

Sewall's Falls Road, east side, at end of pipe.

Chase Street, north side, at No. 14.

Chase Street, north side, at end of pipe.

South Main Street, east side, at Bartemus driveway.

Old Saw Mill Road, west side, near St. Paul's School Tenement No. 93.

Old Saw Mill Road, east side, near Hopkinton Road.

Hopkinton Road, south side, at Frank Crowley's.

Hopkinton Road, south side, at Francis Crowley's.

Hopkinton Road, south side, near Miss Harriet Kimball's.

Hopkinton Road, south side, at end of 8-inch pipe.

Eleven old hydrants have been replaced by new ones.

Fifty-three new services have been laid consisting of 1,087 feet of \(^3\)4-inch, 99 feet of 1-inch and 90 feet of 1\(^1\)2-inch pipe; of these 4 were relocations of old services and 10 had previously been supplied with another consumer.

Eighteen services have been discontinued; total length of service pipe laid, 1,276 feet; total length discontinued, 510 feet; net increase of 35 services and 766 feet of pipe.

One hundred and forty services were relaid, including 32 tapped on the new 14-inch pipe in West Concord, and curb valves were placed on 25 old services.

Fifty-two new meters were set and two have been discontinued.

Due to the severity of the winter of 1933-34, the frost went unusually deep, and approximately 100 services were frozen. Electricity and hot water were used to thaw them. In some cases it was necessary to dig to the main. We found in an 8-inch main on Rumford Street about two inches of ice inside the pipe.

On February 18 our men were called to East Concord to repair a broken 6-inch pipe leading to a hydrant at the corner of East Penacook Street and Canterbury Road. We found that the break was caused by the freezing of the pipe.

It was necessary to shut the water off from part of the village, but after doing this no houses in the village could get any water.

Upon investigation it was found that the 5-foot riser supplying the 100,000-gallon tank was frozen solid. Efforts at thawing were unavailing and the riser continued frozen until March 2, when the action of the sun on the stack thawed it sufficiently so that an opening was made through the stack into the tank. The stack has, from careful examination, shown no damage from the freezing.

The 14-inch bitumastic-lined main laid in November and December, 1933, in West Concord to replace 12- and 14-inch cement-lined pipe was connected at the upper and lower ends to the existing mains in April and May, 1934. The schedule of pipe laid also shows the amount of cement-lined pipe discontinued.

Five thousand seven hundred and seventy-one feet of 8-inch pipe has been laid in the Hopkinton Road and Saw Mill Road, replacing 4- and 2-inch pipe, and seven hydrants were set. This was done principally to furnish fire protection for the property along these roads, as the 4-inch pipe in use was so filled as to be inadequate for any fire flows.

It has not been necessary to start the auxiliary pumping plant at the Soucook well field this year, as there has been sufficient water in Penacook Lake to fully care for all demands. The usual force has been kept on duty at the plant. A portable air compressor manufactured by the Sullivan Machinery Company of Claremont, with a capacity of 126 cubic feet of air per minute, was purchased early in 1934, and two trucks have been fitted to haul the machine from the garage to the job. This compressor has proven of great value to the Department in digging through frozen ground, asphalt pavements and drilling boulders.

A 1½-ton G.M.C. truck, replacing a 1928 Dodge truck, was purchased. This is the second of this size and make that we now have, and they are giving excellent service.

At the reservoir a chain link fence 7 feet high has been built at the foot of the embankment, replacing one of wood which was at the top.

An extension of 6-inch pipe in the Sewall's Falls Road was made during the winter by the C.W.A. as a relief project. This main furnishes water for the Municipal Golf Course, two hydrants and one dwelling.

The mean height of the water in Penacook Lake for 1934 was 183.276 feet, which was 1.724 below the overflow. The highest level was reached April 12 at 185.80, which was .8 foot above the overflow, and the lowest was December 1 when the level was 181.90, 3.1 feet below the overflow.

Annexed to this report is the statement of the City Treasurer showing the balance at the first of the year, the bonds and interest paid, the bills paid and the balance at the close of the year.

In closing I wish to thank the members of the Board of Water Commissioners and the Water Works employees for their co-operation in carrying on the work of the year.

Respectfully submitted,

PERCY R. SANDERS, Superintendent.

REPORT OF FIRE DEPARTMENT

To the Board of Mayor and Aldermen:

In accordance with the requirements of the City Ordinance, I herewith submit for your consideration the report of the Fire Department for the year 1934.

The Department responded to 485 alarms.

Bells	Stills	Total
49	436	485

The number of alarms for this year was 49 less than the previous year, and, with the greatly reduced fire loss, I feel that we can be proud of this record.

The apparatus, in the main, is in good condition. We still have three pieces that will have to be modernized, which will not require a large expenditure. A combination hose and booster truck was installed in Headquarters to replace an old Winton truck that had been in service since 1915, also a smaller truck of the same model was installed at Engine and Ladder 3, Penacook Station, replacing an old White truck that had been in service since 1915.

All work on these trucks was done by the permanent men, saving the city thousands of dollars, reflecting great credit for their accomplishments.

The need of an additional ladder truck is more apparent daily. I urgently recommend an aerial ladder truck be purchased this coming year.

The Fire Alarm System is in good condition. Rectifiers were installed this year, replacing the motor generator charging system. This change is a more efficient and economical method of operation.

Two new fire alarm boxes were added to the system, but there are still a few locations where new boxes should be installed.

All hose in the Department has been tested, and a small amount was turned over to other departments. One

thousand feet of new hose should be purchased this coming year for replacement.

The addition to the Central Fire Station has been completed, which will meet the requirements for many years.

Fire preventive activities have been carried on by the permanent force. There were 4,733 inspections made, all men rotating in this work. A great deal has been accomplished in this line.

I wish to thank the citizens for their co-operation with this Department pertaining to fire prevention.

For the support and co-operation of your board, and the heads of departments, I wish to express my appreciation.

Respectfully submitted,

W. T. HAPPNY, Chief of Department.

REPORT OF THE ENGINEERING DEPARTMENT

CONCORD, N. H., December 31, 1934.

To the Board of Public Works:

GENTLEMEN:

The following is the yearly report of the various subdivisions of this Department:

Engineering

Appropriation, Expended,	\$5,275.00 5,273.43
Balance.	\$1.57

An itemized account of all work done and expenditures is kept on a card system, which we will be pleased to show and explain to all interested parties.

Fifty-two plans and 1,781 blue prints were made; 12,500 feet of grade stakes were set; 396 transfers of property were recorded; 0.131 miles of street were laid out in 1934, bringing the total mileage of streets and roads in the entire city up to 182.907 miles.

The deed book of Blossom Hill Cemetery showing transfers of lots was brought up to January 1, 1935.

The following streets were laid out in 1934; Sylvester Street Extension, West Concord.

The employees of this Department have been: Edward E. Beane, engineer; C. Fred Moulton, transitman; John A. Howard, Walter Darrah, Gilman Crowell and Gordon Stevenson, rodmen; S. Frances Richardson, chief clerk; and Frank S. Merrill, accountant, all of whom have rendered valuable service to the city.

Appropriation,	\$6,702.00
Expended,	6,699.98
Balance.	\$2.02

During January and February, the C.W.A. worked on trees in Penacook at no cost to the city.

Tree work is very hazardous, but we feel that the city as a whole is well taken care of by our foreman, J. Henry Jordan, and his assistants.

GARBAGE OTHER THAN TABLE GARBAGE

Appropriation,	\$35,000.00
Expended,	34,997.75

Balance, \$2.25

This work is very uncertain as to amounts to collect, but our method of collecting seems to be satisfactory.

TABLE GARBAGE

Appropriation,	\$4,360.00
Expended,	4,360.00

Table garbage is collected by contract, with Bert Holt having the contract for the city proper, said contract to run until December 31, 1937. Fred Loranger has the contract for West Concord until June 6, 1935; also Penacook, the contract extending to August 1, 1936. No appropriation was made for the West Concord collection of garbage, the expense being borne by the Roads and Bridges appropriation.

ROADS AND BRIDGES

Appropriation,	\$167,170.76
Expended,	167,169.92
Delege	
Balance,	\$0.84

BRIDGES

The Loudon, Cloughs Mills, Davis and Crescent Street bridges were replanked.

Culverts

Fifteen culverts were repaired and three new ones installed.

FENCES

Guard rails have been repaired. We are building new fences continually where needed.

SNOW REMOVAL

The streets and roads were plowed 15 times, taking 39 days' time. Sidewalks were plowed 20 times. Total depth of snow fall, 81 inches. We had three hard storms that drifted and made plowing very difficult.

CLEANING STREETS

The motor-driven flusher and four patrol men worked on North and South State Streets, North and South Main Street, Park, Capitol, Green, School, Warren, Pleasant, Center, Prince and South Streets.

GARAGE AND STABLES

The buildings are in good repair, with the exception of the carpenter shop, which also includes storage space for trucks. This is a wood-frame building, and needs extensive repairs.

Our heating plant does good work and is of sufficient capacity, so that we were able to extend the steam system to the Sewer Department garage.

An inexpensive wood-frame building was built on to the east side of the garage and is used as a store room for tools.

We have a good machine shop, but are cramped for space. An addition would be a great help, and tend to increase the efficiency of the garage mechanics.

Equipment Purchased

One stone crusher; three G.M.C. trucks, 3–4 tons; two G.M.C. trucks, 5–6 tons; three sand spreaders; one patrol grader; one concrete mixer; one tree sprayer; several small tools and appliances.

Equipment Discontinued

One International truck was discontinued as unsafe and of no value as far as service is concerned. Two Mead-Morrison tractors are worn out.

SIDEWALKS

During the year there were laid 1.46 miles or 5,598 square yards of coal tar walk, and 1.25 miles of gravel walk were built and repaired.

Four new walk plows were built by our forces.

PLUMBING INSPECTION

There were 76 plumbing permits issued and 150 inspections made.

ROAD CONSTRUCTION

There were 1,100,500 square yards of tar surface retarred, and $55\frac{1}{2}$ miles of road tarred.

Gravel roads were patched and road machined.

The State of New Hampshire, under the Emergency Relief Unemployed, set up \$21,189.61 for work on Class V roads. This work was financed from the Roads and Bridges appropriation and was reimbursed by the State. All of the money was expended plus \$0.09 balance from the 1933 account.

The labor was obtained from the Commissioner of Labor of the State of New Hampshire, and the following roads were worked upon: Shaker Road, Snow's Pond Road, Sanborn Road, Graham Road, Loudon-Penacook Road, Canterbury Road, Elm Street (Penacook), River Road, Lake View Drive, Silk Farm Road, Birchdale Road, Hooksett Turnpike and the Runnells Road, the work covering about 14 miles of road.

Men from C.W.A. worked on Snow's Pond, Runnels Road and Sylvester Street, this work being done in January, 1934.

New pavement of Hot Top (so-called) was built on North State Street from Pleasant Street to just north of Beacon Street, or a total length of 3,560 feet; 13,132 square yards of pavement were laid; 1,631 square yards of walk were rebuilt and 1,878 feet of curbing reset.

The same kind of pavement was laid on South State Street from Pleasant Street to South Main Street, or a total length of 3,796 feet; 13,635 square yards of pavement were laid; 3,359 feet of curbing reset and 450 square yards of walk were relaid.

The same kind of pavement was laid on South Main Street from West Street to Freight Street, with the exception of the easterly side, which is to be completed in 1935. A strip 28 feet wide was built in the center, and the west side was topped for parking space the entire length of 2,520 feet.

The center lane required 8,027 square yards, the west parking space 6,080 square yards and the work in east parking at South End 783 square yards of pavement. These were made of standard mix and meet all requirements of State Highway specifications.

On these jobs the drainage was cared for by the installation of 32 new eatch basins and 41 manholes.

Total miles of hot-top, 1.87.

The State of New Hampshire built 2.42 miles of cement concrete road on North State Street from the Prison Crossing to Granite Avenue.

PARKS

A cement curb was built around the small part of the intersection of Hall and Water Streets, and area graded with loam.

STATE AID ROAD

Clinton Street was made a State Aid Road and has been built from Bow Line to east of Albin Road, or 2.40 miles.

GENERAL

All extra labor on all of the department activities was the so-called unemployed and citizens of Concord, and was obtained through the Department of Labor of the State of New Hampshire.

To make a complete report of the activities of the Engineering Department would be too large in volume to print in this report.

We have on file in our office progress maps which show the road work of each year.

Our records are kept on a card system which shows all receipts and expenditures. We would be pleased to show them to anyone interested.

Work has been done for committees and departments when requested. All requests from citizens were granted when it was possible to do so. We are pleased to report that practically all of the work detailed to us has been completed, and that we have kept within the appropriation, and there are no outstanding claims.

For the many courtesies extended me by His Honor Mayor John W. Storrs, the citizens, heads of departments, your board and for the loyalty of all employees, I wish to express my gratitude.

Respectfully submitted, FRED W. LANG, Commissioner of Public Works.

REPORT OF BOARD OF HYDRANT ('OMMISSIONERS

REPORT OF THE BOARD OF EXAMINERS OF PLUMBERS

CONCORD, N. H., December 31, 1934.

To the Board of Public Works:

GENTLEMEN:

The thirty-fifth annual report of this Board is herewith submitted.

The membership of the present Board is Arthur W. Brown, an examined master plumber; Walter C. Rowe, M.D., and Fred W. Lang, Commissioner of Public Works. Mr. Brown is Chairman of the Board and Fred W. Lang, Clerk.

No applications were received and no examinations were held.

There are four classes of plumbers on the register, who have paid for 1934 licenses, and are listed as follows:

Total number of registered masters,	5
Total number of registered journeymen,	2
Total number of examined masters,	29
Total number of examined journeymen,	11

Respectfully submitted,
A. W. BROWN,
WALTER C. ROWE, M.D.,
FRED W. LANG,
Board of Examiners of Plumbers.

REPORT OF BUILDING INSPECTOR

CONCORD, N. H., December 31, 1934.

To the Board of Public Works:

GENTLEMEN:

The eleventh annual report of your Building Inspector is herewith submitted:

Number of building permits issued,	54
Number of zoning permits issued,	53
Number of buildings completed,	62
Number of signs erected,	25

This Department works in conjunction with the Zoning Board of Adjustment, and 29 cases were referred to them.

For the courtesy extended me by His Honor Mayor John W. Storrs, your Board, the contractors, citizens and Zoning Board of Adjustment, I wish to express my appreciation.

Respectfully submitted,

FRED W. LANG, Commissioner of Public Works.

REPORT OF THE LIBRARIAN FOR 1934

To the Mayor and Board of Aldermen of the City of Concord:

Gentlemen: In transmitting the final report of Miss Blanchard as Librarian of the Public Library, which briefly sets forth the condition of the Library and its work during the year 1934, it seems not inappropriate to add the words of a resolution by which the Trustees accepted her recent resignation, as follows:

"Resolved, That the Trustees hereby accept the resignation of Miss Grace Blanchard to take effect February 1st, 1935, after forty years of service as Librarian of the Public Library; and that they take this action with much regret and with a profound sense of the significance of the event;

"That, as Miss Blanchard was desired to accept this office upon the petition of a large number of the most substantial and representative people of Concord, so now she leaves it with the sincere regret of a still larger number of those citizens, and of a later generation, carrying with her, as the Trustees are convinced, their commendation of a high and useful educational work conspicuously well done."

Respectfully submitted,
WILLIAM W. FLINT,
President of the Board,

REPORT OF THE CITY LIBRARIAN FOR 1934

To the Board of Trustees of the Concord Public Library:

Gentlemen: "Feeling the pulse" of a Library is somewhat like taking its circulation statistics; ours are given forthwith:

	Vols.
Desk,	123,526
Penacook Branch,	9,282
West Concord,	2,350
East Concord,	904
Schools,	792
	136,854

Not so much custom as in 1933; libraries everywhere say, "More employed, fewer readers." We have had, however, 1,212 new borrowers; 6,424 inquirers have come to the Reference Room.

Expenditures are always listened to with interest by a Governing Board; ours follow:

Salaries,	\$5,972.50
Books and periodicals	1,617.74
Binding,	725.85
Printing,	121.65
Fuel and light,	873.22
Incidentals,	4,110.33
	\$13,421.29
We estimate our income thus:	
Rent from Battery Station,	\$840.00
City appropriation,	7,500.00
Interest on funds,	4,629.03
Fine money,	541.00
	\$13,510.03

You will see that we are again solvent; and that, despite the fact that our expense figures include the entire cost to date of the Boys and Girls House which opened October 1st. As you know, the Library owns the Nathaniel White property which has had as a free tenant for some years, the American Legion. Last spring the President of this Board favored carrying out my long-cherished plan; accordingly, that part of the old White residence which faces School Street was cleansed and fitted up to be the first institution of its kind in the state. What was the long parlor now has what a children's reading room should have, low tables. small chairs, wall-shelves filled with the right kinds of books. in bright bindings. Upstairs, two chambers, now sketchily furnished to be attractive to the young, can in future be used for many purposes, such as story hours, mothers' meetings, etc. Borrowers are children in the first six school-grades; how to accommodate them best, will be considered in settling the hours of opening. Mrs. Agnes D. Clement was engaged as part-time assistant to take charge of this Boys and Girls House.

The year's net addition to the shelves is very meagre, for though we have bought 1,225 volumes, we have discarded 950.

Mr. Charles Saunders' bequest of about 850 books to the Penacook Branch has helped us to furnish reading to the 750 customers in Ward 1 who crave and deserve more new publications than we can afford.

Miss Brown has developed our bulletin board to such an informative condition that almost every passer-by pauses to scan it.

Over 5,000 reminder postals have been sent asking for the return of over-due books.

During November and December, thanks to arrangements made by the Library Commission, a federally paid helper was assigned us as a general assistant.

Respectfully submitted,
GRACE BLANCHARD,
Librarian.

Most of the gardens were well taken care of and I am sure much benefit was derived from the fresh vegetables received from same. A great many families canned vegetables which will help out during the winter months.

I feel sure that the project was well worth while.

I wish to thank the citizens of Concord, who by the donation of land for garden plots aided greatly in the furtherance of said project.

I wish to thank Mr. Raymond Tonkin, for his faithful services as supervisor, also the Extension Service at Durham, N. H., for their coöperation, seed, fertilizer, plants, and jars furnished, and the Board of Aldermen for making the project possible by the appropriation of five hundred dollars (\$500).

Respectfully submitted,

ARTHUR E. ROBY, City Clerk.

REPORT OF SEALER OF WEIGHTS AND MEASURES

To His Honor the Mayor and the Board of Aldermen:

Your sealer kept a close supervision of the weighing and measuring devices in the City of Concord during the year January 1, 1934 to January 1, 1935.

There were 967 scales tested, 596 of which were found correct and were sealed, 320 were adjusted before being sealed, 10 were confiscated, and 41 condemned for repairs. These were later reinspected and sealed.

There were 1,520 weights tested, all of which were found correct and were sealed with the exception of 22, which were confiscated.

Of the 25,267 liquid measures tested, 13 were adjusted before being sealed, 31 confiscated, and 6 condemned for repairs, while the remainder were found correct and were sealed. Thirty-one (31) dry measures were tested and found correct.

There were 513 tests made of gasoline pumps with the following results: 326 were giving accurate measure and were sealed, 135 required adjustments before being sealed, 52 were condemned for repairs and later reinspected and sealed.

Seven (7) loads of coal in the process of delivery were reweighed, 3 of which were found over and two under weight. There were 3,876 packages reweighed, 33 of which were found over and 150 under weight, and 3,693 contained the amount indicated on the wrappers or containers.

Fifty-one (51) cart bodies used in the delivery of wood were measured and found correct with the exception of 5, which were ordered rebuilt to conform to requirements.

There were measured 6 tank wagons used in the delivery of gasoline and 6 meters on such vehicles were tested, 3 of which were found correct, 2 were adjusted, and 1 condemned for repairs.

Miscellaneous inspections were made as follows: 1 cloth-measuring machine was found working accurately, 1 tape measure was confiscated, and 10 yardsticks were found correct. One hundred and eight (108) kegs of beer were inspected and conformed to requirements, although many of the seals were damaged, apparently in shipment. Four (4) piles of wood in the loose were measured, 2 were found correct while 2 were short of the necessary amount.

Your sealer has had the co-operation of merchants at all times and feels that the weighing and measuring equipment in the city is in reasonably good condition at the present time.

Respectfully submitted,
GEORGE A. DEARBORN,
Sealer of Weights and Measures.

REPORT OF THE CITY SOLICITOR

January 1, 1935.

To the Board of Mayor and Aldermen:

In accordance with the provisions of Section 3 of Chapter XI of the Revised Ordinances, I herein submit a report of

my activities as City Solicitor for the year 1934.

The usual contracts, leases, resolutions and ordinances were prepared and the usual opinions furnished the Board of Mayor and Aldermen, special committees of the Board and department heads on any subject in connection with the ordinary conduct of municipal affairs.

During the month of January, 1934, the applications to the Federal Emergency Administration of Public Works. already in preparation, were completed and were filed so far as was possible under the rules and regulations of the administration.

The following civil cases mentioned in my report for the year 1933 have been settled:

- 1. Maurice Fitzgerald vs. Roland Moran and the City of Concord. Settled for \$150.
- 2. Leon Trembly vs. The City of Concord and Milan R. Piper. Settled for \$20.

The following cases mentioned in my report for the year 1933 are still pending:

- 1. Ethel Blankenburg vs. The City of Concord.
- 2. Bektash Real Estate Association vs. The City of Concord.
 - 3. W. Fred Lane vs. The City of Concord.
 - 4. Henry Bean vs. The City of Concord.

Two new civil cases have been brought during the year:

1. Clement Shettino vs. The City of Concord. A suit for injury alleged to have occurred on December 20, 1930, while the plaintiff was in the employ of the Water Board. The Water Department carries workmen's compensation insurance and the insurance company is defending this suit.

2. Frank Truchon vs. The City of Concord. The suit is for injury said to have been occasioned to the property and health of the plaintiff and his family by the maintenance of a public nuisance consisting of a certain dump which gave forth an obnoxious steneh.

Two appeals have been taken from decisions of the Zoning Board of Adjustment by Nicholas Faretra, denying his petitions. These appeals take the form of an action by Faretra against the Zoning Board.

In co-operation with the sanitary officer and milk inspector four cases involving the adulteration of milk and misuse of milk containers were prosecuted. The respondents paid fines in each instance.

Various prosecutions involving the taxi ordinance were successfully prosecuted in municipal court and two of the cases were appealed. Both were tried before a jury and found guilty.

I wish to express my appreciation and thanks to former Mayor Brown, Mayor Storrs and members of the Board of Aldermen and the heads of all departments and their assistants for the courtesy shown me.

Respectfully submitted,
ROBERT J. KELLIHER,
City Solicitor.

HEALTH DEPARTMENT

REPORT OF THE SANITARY OFFICER

To the Honorable Mayor, the Board of Health and the Board of Aldermen:

I have the honor to submit the following report on the health of Concord during 1934.

During 1934 general health conditions in Concord were good. Deaths of true residents were less than in the year before, giving us a death rate, excluding institutional deaths of non-residents, of 12.9 per 1,000 persons as against 13.6 for the preceding year. In spite of our sharing in the epidemic of measles which swept the eastern seaboard, and in the regional prevalence of whooping-cough, the number of deaths of infants and of pre-school and school children was neither excessive nor unusual. Infant mortality was 62 per 1,000 live births.

Community protection against diphtheria was materially increased during the year by an immunization campaign in which 563 children less than five years old were treated with toxoid, while 1,048 children between the ages of 5 and 15 years inclusive were treated with toxoid or toxin-antitoxin. For this campaign, which was carried out in co-operation with public and parochial school authorities, the services of six nurses were provided the city by an Emergency Relief Administration Project. The importance of protecting the pre-school child against diphtheria was literally brought home to mothers by systematic visiting by nurses, with the result that the percentage of protected pre-school children in the city was trebled.

A communicable disease nurse was provided in this department for the last twenty weeks of the year by another ERA project. Through a CWA and later yet another ERA project, the death records of the city for each census year since 1790 and for each year since 1910 were retabulated

by modern methods, making it for the first time possible to determine the trend of age and cause specific death rates for true residents of Concord and providing a background both for comparison with other areas and for guidance of the public health policy of the city. In co-operation with the State Department of Health and the United States Food and Drug Administration, a drive was made on adulterated edible oils which were being sold by bootleg methods to some of our grocers. The sanitation of a number of tenements was corrected by action of this department. In co-operation with the Concord Union School District and the New Hampshire Tuberculosis Association, a survey was made of the nutritional status of over 2,000 school children and tuberculosis tests arranged for 163 children found to be thin or known to have been exposed to tuberculosis.

Appreciation is felt and is here recorded for the cordial co-operation experienced during the year from the authorities and personnel of the other departments of the City Government, the schools and the several volunteer organizations interested in the public welfare and health.

Respectfully submitted,

TRAVIS P. BURROUGHS, M.D., C.P.H., Sanitary Officer.

March 22, 1935.

REPORT OF THE PARK COMMISSIONERS

To the Mayor and Board of Aldermen:

Beyond the routine work, no great undertaking was started during 1934. The stone wall on the northern boundary of White Park was continued and this finished enclosing the park with fences and walls. All the provisions of the deed presenting the park to the city have now been fulfilled.

The water fowl at White Park have so increased in numbers that ducks to the amount of \$20 were sold and the money turned over to the city treasurer.

Franklin Hollis declined to continue as member of the Board and Robert J. Graves was appointed in his place.

ASSESSORS' REPORT FOR 1934

To the Taxpayers of the City of Concord:

The Board of Assessors submit to your consideration the following facts and figures showing the valuation of the city and its school districts and special precinct, with the amount of taxes raised in each and returned to the tax collector for collection.

In the following report is a table of the amount raised by direct taxation for the years from 1924 to the present time, which shows the amount raised by direct taxation.

We have to report that Bektash Temple Real Estate Association has petitioned the Superior Court for relief by its Attorneys, Demond, Woodworth, Sulloway & Rogers, from a refusal of this Board on February 8, 1933, to abate a part of the tax, assessed against the Association for 1933. This case is still pending.

Respectfully submitted,
